Autumn Term Newsletter

## What has been happening at Bramley Bank?

### Minecraft Education has landed!

All pupils have now been given a Minecraft login from their class teacher. Here you can follow the Minecraft lessons and develop your skills in computing and coding, or you can just have some fun! Enjoy!

### Science Week

Each class planned, tested and then carried out some scientific experiments. These were then shared in the assembly. Primary 4 looked at recreating the Dead Sea floating effect.

### What does the future hold?

As restrictions are being lifted, the extra-curricular activities we can do will open again. We look forward to going back to swimming, attending Forrest Skills Sessions and just getting out and about.

### Upcoming Events:

February 22nd- March 7th: FairTrade Fortnight

March 4th: World Book Day

March 5th- March 14th: Science Week

March 8th: International Women's Day.

March 21st: World Poetry Day

April 2nd: World Autism Awareness Day
